

DIGIMIC CChair ID

Chairman' Conference Unit with channel selector, voting functionality and identification

Article no.: 05.0188

Description

The new CChair ID offers you improved technology in a slim design.

The new CChair ID allows cost-effective cabling with RJ45 connectors, which also allows faster installation. A new circuit design reduces power consumption and allows more microphone stations to be connected to a DIGIMIC central unit.

With the new CChair, ID conferences can be conducted optimally. The chairman unit gives you priority - for example the delegate units can be muted. Of course, the CChair ID has all the functions of a delegate unit, such as: Microphone with push-to-talk and speech function; voting function and channel selector. You can register and identify yourself using an RFID card.

The language selector allows you to select from 32 audio channels. The selected channel is shown on the display in the appropriate language. The OLED display automatically adapts to its environment. It glows brightly and glare-free, even in darkened conference rooms.

The CChair ID has integrated loudspeakers for decentralised sound reinforcement, which automatically switch off when the microphone is activated. In addition, each unit has an individually adjustable headphone output.

Features

Attributes

- Priority over delegate units
- Mute button to mute delegate units
- Low energy consumption
- Cost-effective RJ45 cables
- Fast installation
- Adaptable display
- 5 buttons to select the language, volume and voting settings
- Microphone button lights up red when speaking
- Identification by RFID card
- ISO 14443A

Digital Audio

- High quality audio signal
- Sampling rate: 48 kHz
- Frequency response: 20 - 20,000 Hz
- Original + 31 voice channels

Connectors

- 2 RJ45 connectors
- 3.5mm jack socket

Case

- Front panel: Aluminium painted
- Housing: plastic
- WxHxD: 139 x 22 x 142
- Weight: approx. 400 g

System requirements

Required system components

- DCen32
Article no.: 05.0050
- DCen32 mini
Article no.: 05.0420

Microphones

- TMD/01
Article no.: 01.0701
- TM58/6
Article no.: 01.0560
- TMD/382
Article no.: 01.0740
- TMD/CL
Article no.: 01.0750

(all microphones are available in different lengths)

Other components

- DDol32
Article no.: 05.0750
- DExt
Article no.: 05.0025
- CMic ID
Article no.: 05.0168

Software

brählerOS conference software for network-based control of all DIGIMIC system components. Fast and easy configuration of all delegate units from a central location.
