

DIGIMIC DPU N2

Article no.: 05.0451

Description

Always be up to date! This is exactly what the DIGIMIC Peripheral Unit (DPU) N2 offers your conference topics. Thanks to new, faster hardware, data is transmitted in the shortest possible time.

With the DIGIMIC DPU N2 you can expand any station of the DIGIMIC lean⁺ series to a multimedia conference terminal. The DPU N2 is a compact interface box that connects the delegate unit with the delegate app from Brähler. Almost any touchscreen monitor can be connected to the DPU.

The Delegate App, based on brählerOS, offers delegates all the information they need about your event: In addition to the interactive agenda, pictures of the speakers, conference documents, delegate database with contact information and many other options keep your audience up to date. The design and selection of the functions can be adapted to the respective needs. In addition to all other information, your company logo and name can also be displayed in the app. In addition, banner advertising can be displayed for speakers and agenda items.

In addition the DPU N2 can be ordered with the Conference Operator software to turn any touch screen into a control panel to control the conference process.

Features

- Integrated ARM Quad-Core CPU
