Administration and Setup Software

Included in Single Conference Licence (OS.0100); Multi Conference Licence (OS.1000); Conference Licence (OS.0001.E); Concurrent User Licence (OS.0005.E).

Application example

Description

Admin-Tool Component is the central Administration and Setup Software, based on brählerOS, to create all kinds of meetings and big conferences.
This tool is essential for every conference and congress administrator, being helpful to optimize the day-to-day conference operation at ease.
With this tool you can plan and organize a conference, manually or automatically detect conference units, write the agenda, create participants or change participant data, upload and manage documents, and many more.

Room Combining / Multi DCen

Use the Admin-Tool Component to comfortably manage delegate units within one system.
The Admin-Tool automatically detects all DIGIMIC DCens in the network and combines them into one large overall system with a click. The detected DCens can be individually connected to fit your particular needs.
.
