

DIGIMIC DCen ConfigTool

Software for configuring DIGIMIC central units

Article no.: S4.1350

Description

The DCen ConfigTool software for Windows allows you to configure your DIGIMIC central units easily and conveniently. All settings are automatically transferred to the connected units, eliminating the need to configure each unit separately.

Whether conference parameters, audio settings, or interpreter units, with the DCen ConfigTool you can conveniently make all settings on your computer. This makes it easier to prepare and manage your conferences. The software is clearly laid out and intuitive to use.

The DCen ConfigTool software is free of charge and can be used without a license. Use of the software is mandatory for models DCen MkII and above.

Features

- **Conference settings:**
Set all conference parameters, such as microphone mode and priorities.
- **Audio:**
Configure all audio settings such as speaker volume or VOX/noise.
- **Units:**
Shows you all connected units. Configure settings and switch microphones on/off, for example.
- **Interpretation:**
Set the languages to be translated and the transfer mode, among other things.
- **CSX4:**
Configure settings for your channel selector center.
- **Network:**
Shows you information about your network. You can also configure network settings.
- **Settings:**
Configure system-specific settings, assign a name to your DCen, and set the RTS indicator light, for example.
- **Info:**
Displays detailed information about the connected DCen.

System components

Hardware

- DCen MkII
Article no.: 05.0055
- DCen mini MkII
Article no.: 05.0430
- Standard Windows PC, dual-core processor, 4 GB RAM, 1 GB free hard disk space

Software

- Microsoft Windows 10/11, 32- or 64-bit edition
- Microsoft .NET Framework 4.6.1 (or newer / will be installed if necessary)

System components

- Units from the CMic, ECMic, and SMic series
- DLine
Article no.: 05.0066
- DSwitch
Article no.: 05.0040
- DExt
Article no.: 005.0025
- DDol
Article no.: 05.0760
- DDol^{2x}
Article no.: 05.0765
- CSX4
Article no.: 05.0070
- DIGIMIC CS
Article no.: 05.0270

Microphones

- TMD/01
Article no.: 01.0701
- TMD 382
Article no.: 01.0740
- TM58/6
Article no.: 01.0560
- TMD/CL
Article no.: 01.0750
- TMS/03 bantam
Article no.: 01.0760
(All microphones are available in various lengths and double gooseneck formats)

Software

DIGIMIC software or brählerOS conference software for network-based control of all DIGIMIC system components. Easy configuration of all delegate units from a central location.
